SPECIAL COUNCIL.

By a special dispatch from Madison received last night, we received the following balloting for U. S. Senator, which took place last evening, in the republican caucus:

Washburne,	1st	2d	3d	4th
Hove,	27	23	30	29
Randall,	22	20	22	21
"C. Cadwallader,"	1	1	1	1
	85	84	86	86

On the completion of these ballots, the caucus adjourned till Tuesday night, at 7 o'clock.

There are 91 republican members of the legislature, and it appears that five were absent or not voting during these balloting. Mr. Carey, of this county, is at home on account of sickness in his family. Mr. Hazleton, senator from Columbia county, is confined to his room by illness; Sen. Virginia is absent on account of the death of his daughter, and Sen. Gill does not go into the caucus, but will support its nominee. We do not know the name of the other absent member.

Of the prospects of the several candidates we learn nothing except what appears in the balloting.

Reorganizing the Militia of the State.

We learn from the Argus that the joint committee on the proposition to put the state on a "war footing" has been in session a few times, and that gentlemen of military knowledge have been before them. They will report in a few days.

We do not believe it is necessary to put the state on a "war footing." That implies calling men from their homes to form an army, and drilling them for service. It means that munitions of war shall be purchased to sustain an army in the field. This would be expensive, and at this time, a useless waste of public money.

What is needed, and called for by the signs of the time, is to number the men subject to military duty—their formation into companies which shall elect their officers, without being called out to drill—and the encouragement of "independent companies," by furnishing them arms, and affording such proper inducements, as will encourage the formation of local military companies.

These steps cannot be taken by the legislature too promptly. There is a possibility, a great probability, that the states will be called upon for quotas of men to put down rebellion and support the laws of the nation. By the resolutions, just unanimously passed by the legislature, the state has tendered to the President "whatever aid in men and money may be required to enable him to enforce the laws and uphold the authority of the general government," and we are in favor of doing this promptly. In order to do so it is necessary to make some preparation by re-organizing our militia system, and this can be done without putting the state upon what is called a "war footing."

The refusal of Northern Alabama delegates to sign the ordinance of secession is significant of trouble in the camp of the traitors. The vote stood in the state for secession 35,776; for co-operation 25,288—majority for secession, 9,490.

As Gov. Chase, of Ohio, will probably be secretary of the treasury, under Mr. Lincoln, he will soon resign his seat in the senate, to which he has just been elected. Mr. Sherman will, most likely be his successor.

Gov. Morgan of New York sent the Union resolutions of the legislature of that state to the governor of Virginia. The latter laid them before the legislature with a message expressing "the utmost disdain."

Mr. Holt has written to Gov. Pickens that Anderson must have his mail matter, not occasionally, as caprice may suggest, but regularly; otherwise mail facilities, which are so expensive to the government, will be withdrawn from the state.

The London Daily News of the 27th ult., in an article discussing the agitations at Washington, says—"There is only one body of politicians, of the multitude assembled, which shows a cheerful steadiness amidst the fluctuations of rumor and men's moods, and that is the stout band of republican members from the north-west."

FREE SUGAR.—The Cincinnati Gazette goes in for free sugar, if Louisiana continues to play her game of secession much longer. We second the motion. Twenty-four dollars on every hundred dollars' worth of sugar, used in the north, goes into the pockets of these planters. We cannot afford to pay that much to those who repudiate the government that gives them this protection.

Wm. H. Seward was born in Florida, Orange county, New York, in 1801, graduated at Union College in 1819; was admitted to the bar in 1825; was elected to the New York senate in 1830 and served four years; in 1839 he was elected governor of his native state and served four years. He was sent to the United States senate in 1840, and is there now. On the fourth of March he will become secretary of state in Mr. Lincoln's cabinet.

The democratic state convention which met at Springfield, Ill., on the 16th, resolved that secession is wrong, but that the law ought not to be enforced by military power. The rebels must be coaxed, we suppose, and if they will not listen to entreaty, they are to be permitted to go on and violate the laws, with impunity.

CINCINNATI TEACHERS.—The monthly payment of salaries to the teachers in the Cincinnati high and common schools took place last Friday. The amount paid out in this way was \$13,259.89.

WISCONSIN LEGISLATURE.

CONDENSED FROM THE MADISON PAPER.

MADISON, Jan. 18.

In the senate the President being absent, on motion of Sen. Worthington, Sen. A. I. Bennett took the chair.

Prayer by Rev. Mr. Britton.

Sen. Worthington arose and said:

Mr. President, I rise to make a motion unusual in this body, and the occasion for which I trust may not again occur. Death has invaded the family of one of our esteemed senators. The daughter of Sen. Virginia has been called to her rest. To many of us she was personally known, having often occupied a seat near her father upon this floor, and we knew her to have been lovely in her life.

Sen. Virginia is one of our oldest senators. We love him and strive to mingle our sympathies with his; and therefore, in memory of his deceased daughter, and in profound respect for our beloved brother, I move that the senate do now adjourn.

The senate accordingly adjourned.

In the ASSEMBLY leave of absence was granted Mr. Carey till Monday next, on account of sickness in his family.

Mr. Pope presented the petition of 86 citizens of Union, Rock Co., for a prohibitory liquor law.

Mr. Graham offered a resolution that the secretary of state furnish a copy of the last census, but it appeared that the census by towns would appear in the blue book, the resolution was laid on the table.

Bills were introduced by Mr. Bailey, to amend chap. 22, sec. 55 of the laws of 1859 relating to land sold for taxes. By Mr. Chapman, to appropriate \$2,000 to the state reform school. By Mr. Spooner, to amend chapter 13 of the revised statutes, concerning counties and county officers.

Mr. Billis moved to adjourn till Tuesday. A question arose as to whether the house could properly adjourn over till Tuesday, the law providing that the two houses shall go into joint convention to elect a U. S. senator on the 3d Monday of January.

Mr. Spooner and others said the law was not binding upon the legislature.

The assembly adjourned till to-morrow.

ALL SORTS OF PARAGRAPHS.

Wm. M. Everts, H. J. Raymond of the Times, D. D. Field, Horace Greeley, M. H. Grinnell, Ward Hunt and Gov. Morgan, are spoken of as candidates for Mr. Seward's place in the senate.

Gen. Twiggs has declared his purpose to adhere to Georgia, and to resign his position in the present army whenever Georgia shall secede.

Mr. Lincoln was called upon at his house at Springfield, on Saturday, by an old farmer of Indiana, named Jones, for whom thirty years ago, he worked as a common farm hand at one dollar per day.

The St. Charles, the largest and most fashionable hotel in New Orleans, and which every winter averages from 500 to 800 northern boarders, has at this time but thirteen guests hailing north of Mason and Dixon's line.

CURATORS OFFENSE.—A priest of the name of Sabatier, of the parish of Lassus, France, was some time ago condemned by the Tribunal of Correctional Police of Poix to 1000 fine for a singular offence—desecration of a place of sepulchre, by planting potatoes in the cemetery. He appealed to the Imperial Court of Toulouse, but the fine was increased to 2000.

Some of the southern secessionists express the patriotic and wise determination not to use any ice of northern production, but rather than do that, to take their juleps, cobbler and brandy-smashes warm. This will have a further tendency to make ice very cheap in this region.

Gen. Scott is the largest man in the American service. He is six feet six inches tall, and weighs two hundred and sixty pounds. He is 74 years old, yet his health is good, and his whole system is apparently vigorous, much of which is owing doubtless to his very temperate habits.

Mr. Adams, of Mass., withdrew his amendment from the majority report of the committee of thirty three, for the reason that the southern members have generally retired from the committee, thereby showing an unwillingness to accept anything!

POLITICAL JOKING.—An exchange thinks that the seizure of Ft. Moultrie by the Carolinians looks a little bit funny. Precisely, and the seizing of the forts on the Mobile looks a little Mo'bilious.

The city of Paris alone has spent \$61,000,000 in the last eight years in beautifying herself—an extensive toilet!

SEIZURE OF ST. LOUIS POWDER IN NEW ORLEANS.—Forty five hundred kegs of powder, worth \$23,000, shipped from the east via New Orleans, to LaSalle, Smith & Bois, of St. Louis, on board ship Tornado, has been seized in New Orleans by the secessionists. The correspondents of Messrs. L. S. & B. have telegraphed the house in St. Louis, desiring the privilege to sell it to the state for cash, otherwise fearing they would not get anything for it.

WOLVES.—Wolves have been very plenty in Outagamie and Calumet counties since the winter set in. A party of good hunters might make a snug thing in the way of skins, by spending a little time there before spring.

A French paper speaking of our Presidents, says that certain words generally give each one his popularity, and it thus translates Gen. Taylor's famous speech at Buena Vista: "A little more raisins (grapes) Capt. Bragg!" while it translated "Old Hickory" *Fellow Nigger* (Old Walnut).

POOR FELLOW.—Edward Lambert, silk dealer in New York, lately failed, \$500,000 worse off than nothing. His personal expenses, and he lived very quietly in Brooklyn, were for the past ten years \$167,000! no man except the editor or publisher of a weekly or tri-weekly paper is justified in living so poorly!

LEGAL PERSPICACITY.—The Dubuque Herald says there is a suit in the district court from that district with the following title: Isaac Burch and Julien Valentine, surviving partners of themselves, and Thomas Burch, deceased, vs. Austin Adams and Thomas M. Redmond and W. Y. Lovell, the last two surviving partners of themselves, etc.

A FRENCHMAN'S VIEW OF THE RESULTS OF SECESSION.—An old French officer writes to the Courrier des Etats Unis that, to the event of a dissolution of the Union France would retake Louisiana, according to ancient treaties; Spain would reclaim Florida; England would appropriate Oregon and several other states; Mexico, under English protection, would retake the territory of New Mexico, Texas and California, and England might, perhaps, keep California as an indemnity for the subsidies furnished to the former United States.

It is Louis Napoleon who would begin by a very simple and logical process of reasoning; for every one knows that Napoleon III. aims at consolidating all that Napoleon I. had in view with regard to foreign policy.

Napoleon I. in 1805, ceded Louisiana to the United States for the sum of five millions of dollars, which the government of the United States engaged to pay to the American merchants whose goods and ships had been seized during the wars of the French republic, from 1792 to 1801. But the United States have not paid the afore said five millions, and as for more than forty years, we have seen brought before congress, session after session, a French spoliation bill, which has never been passed; therefore, as soon as the Union shall be dissolved, those who claim this sum will address themselves to Louis Napoleon, and he will pay their demands and retake Louisiana. England, who suspects some of this, has already ordered several ships of war to the Gulf of Mexico.

DISASTROUS FIRE AT SELKIRK.—The Red River Nor'Wester of the 17th December, contains an account of the burning of a Catholic cathedral and the bishop's palace adjoining, both of which were completely destroyed, causing a loss of about \$125,000. The fire originated in the kitchen of the bishop's residence, where two servant girls were engaged in making tallow candles.—They put about sixty pounds of tallow into an immense kettle on the stove, which, boiling over, set the house on fire. The palace being attached to the cathedral, both were rapidly overrun by the flames. An old blind man by the name of Ducharme perished in the conflagration. Large masses of property, valuable furniture and effects, about \$800 in money, a choice library of 6000 volumes, a large quantity of provisions—all were lost.

The cathedral, says the Nor'Wester, was beyond all question the largest edifice in Rupert's Land. Its dimensions were:—length, 100 feet; breadth 60; height of walls 40, height of spire 108. The foundations were laid in 1834, and it was not until the present year that it was completely finished. The structure is said to have been vastly superior in symmetry and elegant finish, to the magnificent cathedral of St. Michael's, at Toronto, considered the most imposing on this continent.

TERRIBLE AND FATAL ACCIDENT.—It is with a feeling of sadness that we are called upon to chronicle one of the most appalling and fatal accidents that has ever happened in our village. Last Saturday afternoon, just about dark, Miss Ellen Gilmore, accompanied by two companions, went to the flouring mill. In taking over the mill they ascended to the third story, accompanied by Mr. Head. While looking at the separator, and standing near an upright shaft, Miss Gilmore playfully pointed her hand at the shaft and wanted to know if she could not stop it. She was warned not to put her hand on it, but in putting out her hand her shawl caught and wound her right up round the shaft—the shaft making from eighty to a hundred revolutions a minute. Mr. Head, who was standing near, caught hold of her and must have been carried round once or twice in trying to rescue her. In going round they both must have come in contact with the separator which stands within eighteen or twenty inches of the shaft. When Mr. H. was forced from his hold, Miss G. he thinks must have been carried round the shaft in a horizontal position, her head and body coming in contact with the framework of the separator at every revolution, killing her instantly. One arm was torn from her body, her neck broken, and all her clothes torn off, and when her body became loose from the shaft life was extinct.

In trying to save her, her pretty hair, bruised but no bones were broken. This sad event has cast a gloom over our village, and brought sorrow to many hearts. On Tuesday afternoon a large concourse of people attended her funeral, and con signed her remains to their last resting place.—*Atkinson Standard.*

A BANK SUSPENSION.—The officers and employees of the Reverse Bank, Boston, were completely nonplussed, last week. The safe wherein are kept the funds, notes &c. was locked by a key that has a million combinations. By some mischance this key became disarranged, and all the skill of the safe maker and others was employed to open the safe, without avail. Of course no business could be transacted. Notes payable and notes receivable both remained unpaid, checks were not responded to, and business at the Clearing House was defaulted. When last heard from, a detachment of mechanics were vigorously at work battering down the doors and masonry to effect an entrance.

IMPOTENCY OF THE SOUTH CAROLINA COMMISSIONERS.—The Washington correspondent of the Philadelphia Press says: It is stated here, that the South Carolina commissioners, in their haste to return to their homes, and by way of showing that repudiation is a part of the secession scheme, failed to pay the rent of the house they occupied while here. They hired it of the widow of Commodore Smoot. Duff Green, acting as her agent in this matter, has written them a racy letter, which ought to be published; and it is to be hoped that they will be able to recover the sum due, even if they have taken refuge in what they now claim to be a foreign state. Prof. Wormly, who supplied their cuisine, was also left unpaid, and he has placed his claim, which is quite large, in the hands of a lawyer for collection. This whole affair is a beautiful illustration of the demoralizing influences of the secession movement, and of the tendency of its supporters to embolden the repudiation principle upon their banners.

ITALIAN AFFAIRS.—The London Telegraph of Dec. 27, a long and able editorial, claims that either Austria must sell Venetia, or defend it by force of arms. It is of opinion that the uprising will take place in the early spring months. It further says: "France evidently favors the plan of such a solution, amicable, permanent and satisfactory. There can be little doubt but that Prussia would lend herself to facilitate the arrangement. Russia, to all appearance, is at present identified in political interests with the imperialism of the Austrian cabinet. As to Great Britain, it is noteworthy that her statesmen would gladly welcome a result tending simultaneously to promote the freedom of Italy and the preserve the peace of Europe."

No QUARREL.—The report of the Toombs and Scott difficulty was unfounded, as has been telegraphed. As long ago as 1817, Gen. Scott refused a challenge from Gen. Jackson on religious grounds, and we suppose it is a religious duty not to kill Toombs.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

CHARLESTON, Jan. 17.

In the senate to-day the military committee reported in favor of raising four companies of artillery; declaring that the exigencies of the times demanded that South Carolina be on a war footing to meet opposers from any quarter; the state should have a permanent military establishment and fortifications. The committee recommended that the troops consist of a regiment of infantry and a battalion of artillery of four companies. It will form a nucleus around which the militia and volunteers can rally, and besides be a peace establishment or furnish South Carolina's quota in the army of the southern confederacy.

The senate went into secret session on the proposition to lay a submarine telegraph between Charleston, Morris Island, Fort Moultrie, Fort Johnson and Castle Pinckney.

New York, Jan. 19.

Besides other parties, the grand jury of the United States district court summoned Mr. Hudson of the Herald, Mr. England of the Tribune, Mr. Hills of the Evening Post and ex-mayor Tieman to answer interrogatories touching certain alleged movements in this city.

LATEST BY ASIA.—Breadstuffs market closed steady; provisions dull. It is stated that the English government has sent a strong note to the emperor of France, protesting against the occupation of Syria by the French forces.

Augusta, Ga., Jan. 18.

The Arkansas legislature has unanimously passed a bill submitting the convention question to the people on the 28th of February. In case of a majority favoring it, the governor is to appoint a day.

H. V. Johnson introduced resolutions as a substitute for those adopted, looking to co-operation in acting with a convention of the south at a day in February. Mr. J.'s resolution was lost.

Mr. Stephens said, during the debate, if Georgia determines to secede, the sooner she does so the better. Cannons are firing and flags of independence are floating from the capitol; rockets set off, and there are many manifestations.

Boston, Jan. 18.

A Union meeting in this city is contemplated, in Faneuil Hall, at which Hon. Edward Everett will be invited to speak.—Also a memorial to congress for a pacification and settlement of the existing difficulties, on such compromises as may be deemed expedient. Redpath is in Boston. He denies the intention to add to the perplexities of the south by attempting to run off their slaves.

In the state legislature, to day, a series of resolutions passed by a unanimous vote, tending to the President of the United States, such aid in men and money, as he may require to maintain the authority of the general government. The preamble to the resolutions, asserts that the state of South Carolina, in seizing the fortifications of the federal government, post offices, custom house and money, arms and munitions of war, and by firing on a vessel in the service of the United States, has commenced hostilities. The senate passed a bill authorizing an increase of the military of the state. This bill will doubtless pass the house by a large, if not unanimous vote. In the house a bill was introduced providing for the immediate enlisting of 20,000 men, to be styled the National Volunteer Militia. The act further authorizes the governor to tender the services of the militia to the President.

New Orleans, Jan. 18.

Two-thirds of the elected delegates to the Louisiana convention are secessionists.—Col. Chase, commander of the Florida forces, telegraphed the mayor of New Orleans for 200 men to aid in seizing Fort Pickens. The steamer Havana, from Havana on the 17th, has arrived. Business is dull, and suspensions numerous. The new crop is rapidly coming in.

Washington, Jan. 18.

The story about the encounter in executive session, between Senators Wade and Benjamin is a sheer fabrication. Gen. Harvey has been challenged by a late officer in the army. They are both in Washington.

Raleigh, Jan. 18.

The convention bill occupied both houses again to-day. There is not much opposition to the convention as to particular details relating to the state matters. The convention will be called. There is some disappointment at the northern opposition to Mr. Crittenden's proposition, and this weakens the union sentiment badly.

Washington, Jan. 19.

The question discussed over Holt's nomination was whether he was a coecisionist. His friends asserted that it is his earnest desire to prevent bloodshed, but to maintain the laws by every possible peaceful measure. During the debate on the nomination, Mr. Crittenden is said to have taken the ground that Kentucky is now a central state, enjoying all the prosperity consequent upon the present Union, and form of government, she would never consent to its breaking up, and the formation of a southern confederacy of which she would be a border state, exposed to all the dangers and losses of such a position. It is stated that he was much affected during this portion of his remarks, and the manner in which he upbraided the southern men who defamed his compromise in the senate, was very severe. He took the position that the Union should be preserved at all hazards, either by peaceable means or force, and that force against the lawless citizens of a government being unexpected, created great sensation among the senators.

Mr. McDonnell, of St. Louis, has been confirmed consul to Lyons. The Indian officers are in receipt of late intelligence that 5000 Sioux are collected on a fork of the Platte, and threaten to take Ft. Kearney, wipe out the white settlers and stop emigration.

Fr. Kearney, Jan. 18.

The Pony Express with San Francisco dates to the last inst., passed here on the 16th. The California legislature would convene on the 16th. It was claimed that the Douglas democrats would lack 5 of a majority, and great difficulty in electing a U. S. senator was anticipated.

St. Louis, Jan. 19.

The house convention bill was slightly amended by the senate yesterday in which the house concurred, and the bill finally passed. The amendment reads thus: No act, ordinance or resolution should be voted to change the political relations of this state to the government of the Union, or to any other state, until a majority of the qualified voters of the state should ratify the same. Mr. Russell, the courier from Mississippi, made a strong secession speech before the joint session last night.

Toledo, Jan. 19.

The American Hotel burned this morning. Loss twenty thousand dollars. Insured.

Washington, Jan. 19.

Secretary Holt transmitted to congress to-day, a statement from Col. Craig of ordnance bureau, which shows that during

last year, by special direction of Secretary Floyd, he had admitted 115,000 stand of arms from Springfield and Waterville, to arsenals in North Carolina, South Carolina, Georgia, Alabama and Louisiana. The larger number were Springfield muskets of the last pattern. The majority were muskets altered to percussion locks. Col. C. adds that the arms sent to South Carolina and Louisiana, have since seized by the state authorities.

A petition signed by Lockwood & Co., Thompson Brothers, W. G. Scott & Co., Gwynn & Co., and other subscribers to the loan, authorized by the act of June, 1859, has been received here, praying congress for relief—first, because Cobb refused to deliver the stock when called upon; second, because Cobb, while withholding the stock was preaching disunion, injuring the credit of the government, and depreciating the market value of the stock; third, because President Buchanan tolerated such conduct; and fourth, because the money that should be relieved from the pressure thus occasioned, in view of the act authorizing a new issue of ten millions of treasury notes.

The Markets.

Flour market a shade firmer. Wheat receipts nearly all from California. Market without material change.

DIED.

In Bradford, Rock county, January 13th, of the crop, Mr. A. Augustus, wife of Margaret Jane Augustus, aged 1 year, 1 month and 14 days.

NEW ADVERTISEMENTS

Important to Housekeepers.

GRANT & LONG

RESPECTFULLY inform their friends and the public that they still continue to offer for sale a large and select assortment of

GROCERIES,

consisting of: Tea, Sugar, Coffee, Spices, &c.

We select our liquors from the best and most reliable houses east and west, so as to furnish the most reliable and purest liquors for sale.

You can mistake the place—second Grocery north of Rock county Bank, Main street, Janesville, Wis.

P. H. GRANT. JAS. LONG.

UNITED STATES MARSHAL'S SALE.

In Chancery.

Jefferson P. Harlow vs. Daniel Blodgett and Eunice Blodgett.

In pursuance and by virtue of a decree made by the district court of the United States for the district of Wisconsin, on the fourth day of December A. D. 1860, in the within entitled cause, I shall sell at public auction, at the post office in this city, on Wednesday, the 22nd of January, A. D. 1861, the following described property, to-wit: A certain lot of land, situate in the town of Janesville, in the county of Rock, in the state of Wisconsin, and known and described as follows, to-wit: Commencing at a certain point on the east and west line of section four, town one north of range twelve east of the fourth principal meridian; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence east eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence east eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence east eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence east eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence east eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence east eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence east eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence east eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence south eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence west eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point; thence north eighty eight and three-fourths degrees thirty one minutes and thirty seconds to a certain point;
